

## Self-Storage Talk Featured Thread: Making Units Clean and Ready During COVID-19

Apr 28, 2020

Keeping your self-storage facility sparkling clean has always been a priority to retain and attract tenants, but the stakes are so much higher now in the face of coronavirus. Knowing the infection can survive on various surfaces for hours or even days is powerful incentive. Your best effort is what customers expect; and right now, it's what everyone who uses your business deserves.

In this thread on Self-Storage Talk , the industry's largest online community, members are discussing how they ready empty units for their next renter. How has

your protocol for this task changed? Is there a greater focus on sanitization? Do you leave paperwork, a lock or other move-in essentials in the space? See what others have to say and share your advice.
