

Simply Self Storage Introduces Online Rental Capability in Wake of Coronavirus

Mar 31, 2020

Simply Self Storage (SSS), which owns or manages more than 100 self-storage facilities in the United States and Puerto Rico, has launched “Simple Rental,” which provides online rental capability to customers in the wake of the coronavirus pandemic. The new tool allows users to rent a storage unit using a computer, tablet or mobile phone, without having to deal with facility staff in person.

Simply Rental involves an easy, one-page checkout process. Customers can use it to view rental promotions, choose add-on products such as locks and tenant insurance, and sign up for autopay.

“Our new, online-rental capability changes the game for consumers, making it easier than ever to rent their next storage unit online,” said CEO Kurt O'Brien.

Founded in 2003 and headquartered in Orlando, Fla., SSS properties comprise more than 11 million square feet of storage space.
